

## WORKING WITH DATASETS

DATE	30th October 2022
TEAM ID	PNT2022TMID14797
PROJECT NAME	Visualizing and Predicting Heart Diseases with an Interactive DashBoard
MAXIMUM MARKS	4 marks

### EXPLORATION OF BP Vs CHEST PAIN TYPE AND GENDER

The data can be downloaded from the following:

<https://www.kaggle.com/datasets/rishidamarla/heart-disease-prediction>

The database contains of 14 fields. The "goal" field refers to the presence of heart disease in the patient. It is integer valued from 0 (no presence) to 4.

#### Average BP during the Chest Pain

We are going to plot average BP recorded for Male and Female based on Gender during the Chest pain recorded
